### RICOH Ri 100 - DIRECT TO GARMENT PRINTER

The RICOH Ri 100 invigorates the world of direct to garment (DTG) printing with its space saving design.

The RICOH Ri 100 prints images directly onto fabrics using state-of-the-art DTG technology.

You can print one-of-a-kind personalised T-shirts, bags, cushions, sweatshirts, aprons and more for customers.

No prior experience is necessary to create beautifully printed products safely and easily.

It has never been easier to widen your business scope with one machine.

The RICOH Ri 100 can fit into a space as small as 399 x 698mm, making it one of the smallest DTG printers ever. The printer and its finisher can be stacked to maximise functionality without sacrificing space. No heat press required!

Ricoh Design Software lets you import and edit images before printing, with no specialised knowledge or skills required.

Achieve high quality prints thanks to Ricoh's inkjet technology. Preserve the look and feel of natural fabrics and colourfast prints with direct to garment print using textile inks.

**AVAILABLE FROM APRIL**
